☐ Notice of Reference(s) Cited, PTO-892

*U.S. GPO: 1997-433-221/62717 Part of Paper No.

☐ Notice of Informal Patent Application, PTO-152

Art Unit: 2811

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-15 drawn to a semiconductor device, classified in class 257, subclass 77.
- II. Claims 16-21 drawn to a method of making a semiconductor device, classified in class 438, subclass 22+.
- 2. The inventions are distinct, each from the other because of the following reasons: Inventions II and I are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case unpatentability of the Group I invention would not necessarily imply unpatentability of the Group II invention, since the device of the group I invention could be made by processes materially different from those of the Group II invention, for example, forming the silicon carbide gate before forming the source/drain regions.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, the search required for Group I is not required for Group II, and separate examination would be required, restriction for examination purposes as indicated is proper.
- 4. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Serial Number: 08/903,486

Art Unit: 2811

- 5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
- 6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tom Thomas whose telephone number is (703) 308-2772.
